PROFESSIONAL SUMMARY

Computer and Communication Engineering student at **Amrita Vishwa Vidyapeetham, Chennai**, with internship experience in Front-End Development, Python Development, and Internet of Things (IoT). Skilled in Python, C, JavaScript, Flask, Streamlit, Firebase, and embedded systems. Passionate about developing scalable software solutions, AI-powered applications, and IoT systems while contributing to innovative engineering teams.

EDUCATION

Amrita Vishwa Vidyapeetham, Chennai

Bachelor of Technology (B.Tech) – Computer and Communication Engineering

Expected Graduation: 2029

- CGPA: **9.20 / 10.00**
 - Department Rank **#1** – Semester II
 - Department Rank **#2** – Semester I
-

TECHNICAL SKILLS

Programming Languages: Python, C, SQL, JavaScript

Web Technologies: HTML5, CSS3, Responsive Web Design

Frameworks & Libraries: Flask, Streamlit, Pandas, NumPy, Plotly, TensorFlow, OpenCV, TextBlob

Databases: MySQL, Firebase Realtime Database

IoT & Embedded Systems: ESP8266, Arduino IDE, PN532 RFID, Google Sheets API, Twilio API, ThingSpeak, MIT App Inventor, Blynk

Developer Tools: Git, GitHub, Visual Studio Code, MATLAB, Keil μ Vision

Operating Systems: Windows, Ubuntu Linux

Core Concepts: Data Structures, Algorithms, Object-Oriented Programming, Computer Networks, TCP/IP, Debugging, Problem Solving

INTERNSHIP EXPERIENCE

Front-End Developer Intern | CodeAlpha (Remote)

Jul 2026 – Present

- Developed responsive and user-friendly web applications using HTML, CSS, and JavaScript.
 - Built a professional portfolio website with reusable components and responsive layouts.
 - Improved website accessibility, responsiveness, and cross-browser compatibility.
-

Python Development Intern | CodTech IT Solutions (Remote)

May 2026 – Jun 2026

- Developed Python-based applications following structured software development practices.
 - Built an AI-Based Sentiment Analyzer using Flask and TextBlob.
 - Designed a Real-Time Stock Market Dashboard using Streamlit, Plotly, and yFinance.
-

Internet of Things (IoT) Intern | SmartED Innovations (Remote)

Dec 2025 – Feb 2026

- Developed an IoT-Based Weather Monitoring System using ESP8266 and environmental sensors.
 - Integrated multiple sensors for real-time environmental monitoring.
 - Implemented wireless cloud communication for remote monitoring.
-

PROJECTS

Smart Pharmacy Queue Management System

Technologies: IoT, ESP8266, RFID, Firebase Realtime Database, Google Sheets API, MIT App Inventor, Twilio API, ThingSpeak

- Developed an IoT-enabled pharmacy queue management system for automated patient registration and prescription processing.
- Implemented RFID-based patient identification with dynamic priority scheduling for senior citizens, pregnant women, and emergency patients.
- Integrated Firebase Realtime Database, Google Sheets API, Twilio SMS, and ThingSpeak for real-time synchronization, notifications, and analytics.
- Developed dedicated mobile applications for patients and pharmacy staff using MIT App Inventor.

Real-Time Stock Market Dashboard

Technologies: Python, Streamlit, Plotly, yFinance

- Developed a real-time stock market dashboard for monitoring and visualizing live market data.
- Retrieved live financial data using the yFinance API.
- Created interactive dashboards and charts using Plotly.
- Built a responsive web interface using Streamlit.

RESEARCH PUBLICATION (ACCEPTED)

RFID and IoT-Driven Smart Healthcare Automated Queue Management System with Dynamic Priority Control and Real-Time Cloud Analytics

- Accepted for presentation and publication at the **7th International Conference on Smart Electronics and Communication (ICOSEC 2026)**.
- Proposed an IoT-enabled healthcare queue management framework integrating RFID, cloud technologies, and intelligent priority scheduling to improve pharmacy workflow and reduce patient waiting time.

CERTIFICATIONS

- Front-End Development Internship – CodeAlpha
- Python Development Internship – CodTech IT Solutions
- Internet of Things Internship – SmartED Innovations
- IBM Prompt Engineering for Everyone
- IBM SkillsBuild – Getting Started with Artificial Intelligence
- IBM SkillsBuild – Databases and SQL
- Cisco Networking Basics
- Cisco Data Science Essentials with Python
- Infosys Springboard Certifications
- TCS iON Career Edge

ACHIEVEMENTS

- Department Rank **#1** – Semester II
 - Department Rank **#2** – Semester I
 - Research Paper Accepted for Publication at **ICOSEC 2026**
 - School First – Grade 10 (CBSE)
 - School Second – Grade 12
 - Successfully completed internships in Front-End Development, Python Development, and IoT.
 - District-Level Basketball Player
-
